Explore CIE's Comprehensive Datasets and Metadata Resource
[Now Available Online](#)!

Looking for CIE datasets, like the new [CIE L41 LED reference spectrum](#) or the more traditional [standard Illuminant A](#)? For you, the CIE has curated its key and most popular [FAIR](#) datasets.

The datasets are easily findable on the [CIE website](#) along with references to the internationally approved CIE publications where they were originally published.

No need to look for these CIE datasets on another (non-licensed) platform – just find them here at their source:

## CIE - the international organization on all things lighting
